Hi Debra – The NRC’s cardiac conclusions are on pp 171-172. If you’d like to read their summaries of the animal studies, they’re on pp 153-157.

Johnson 2003 includes doses from Dawson 1993 (same group of investigators). Also read about Fisher 2001. Johnson was a co-author, Fisher didn’t find cardiac anomalies, and Fisher’s controls were higher than Johnson’s and Dawson’s. (I wish the NRC had reported strain and put all study doses into comparable units.)
